MEMORANDUM FOR: Chief, OSI Admin

SUBJECT : Exemption of Dual Compensation Restrictions in
Hiring a Retired Military Doctor

1. This Office was recently asked to determine the circumstances under which a retired military medical doctor can be employed in the U.S. Government with an exemption from the dual compensation law applicable to retired military personnel. The interest of OSI and the doctor under consideration for employment was to have him retain his full retirement annuity and the full Agency compensation as a civilian employee. The doctor stated he was aware of such a program and wished to be employed under the provisions of that program.

2. We have checked with the Civil Service Commission and have been advised that the only program of that nature was one which had been approved for only one year and only for the Department of Defense. When an agency, such as CIA, which is subject to the dual compensation laws, wishes to obtain an exemption for a specific case, a memorandum to the Commission requesting an exception is required. The memorandum should contain sufficient explanatory information to support the request.
